BRIDGING BORDERS

Eu-PIC Board

Thursday-evening the Eu-PIC Board had a teleconference on the progress of the project. In WP4, the commercial partners on Decison Support Tools had a good meeting, but expressed a need to be in contact with WP3 leaders on Evidence-based dosing guidelines. Next week, a demo will be scheduled demonstrating the current available decision support tools from Biol.Logis, Abomics and Geneix. For WP7 (Scientific Research), the collaboration with the European PGx Research Network was discussed.

Scientific Research & Trials (WP7) brainstorming in Austria: Magnus aiming for TOP Research....

Candal Hizel is active to arrange the 2nd Eu-PIC consortium meeting at Acibadem University in Istanbul for April 2-3.

Work schedule timing

Last Friday, the templates for the workpackage descriptions were sent out, based on the Stage I proposal. In the next week, the Workpackage leaders will finetune and extend these WP descriptions, and tranlate them into deliverables and milestones. A first draft per WP is planned to be available at Feb 26. After that, input from other participants will be added, to reach a second draft on March 11.
